

BCAI Series Stand Alone Quartz**HIGHLIGHTS**

- Proven time-keeping accuracy and reliability
- Hour, minute and second hands
- Custom colors and plating available
- Complete stand-alone capability
- Works on a single "AA" battery
- Available in 12" or 16" round case
- Low profile—slim case design
- Smooth surface metal case (optional ABS plastic cases are available)
- A plethora of hand and dial designs
- Variety of lengths and colors for double mount
- Shatterproof, side molded polycarbonate crystal (optional polystyrene plastic crystals are available)
- Made in U.S.A.

DESCRIPTION

The BCAI Quartz Series clocks are the ideal solution for an affordable and chic analog clock. This series has a vast selection of dials and hands for a stylish, contemporary look. Dials range from our standard 12 or 24 hour version to sleek new designs that we have developed. We provide multiple options for hour and minute hand selections, from standard hands to unique and different styles of hands that give the clocks a certain panache. Our cases come in a wide variety of custom colors from green to orange, as well as our standard black and white. Another option that we offer is plastic cases and crystals, for a more cost-effective alternative. BCAI clocks are available in a double mount housing which has a variety of different lengths and colors. The BCAI Series clocks have a low profile, smooth surface metal case, or a smooth surface ABS case. This clock series is available in both 12" and 16" round cases. This BCAI Series comes with a shatterproof polycarbonate crystal, or an optional polystyrene crystal in both size models. The BCAI clocks work on a single "AA" battery making it efficient and inexpensive to maintain. This line of clocks is also compact, energy efficient and reliable. Bogen quartz analog clocks are the perfect choice for design and versatility.

BCAI Series Stand Alone Quartz

SPECIFICATIONS

- Battery type/size: 1.5 volts / "AA"
- Quartz frequency: 32.768 KHz
- Operating range: 1.2 - 1.7 Volts
- Current consumption: 0.110 mA
- Accuracy: +/- 0.8 sec./day @ 1.5 V
- Temperature range:
Operating: -20°C - 60° C
Storage: -20 C - 70° C
- Display: 12 or 24 hour format
- Color: Standard black or white (custom colors available)
- Clock Size: 12.81" diameter, 1.2" depth
16.81" diameter, 1.6" depth
- Case: Shallow profile, smooth surface metal case (optional ABS plastic cases available)
- Crystal: Shatterproof, side molded polycarbonate crystal (optional polystyrene plastic crystals available)
- Movement dimensions: (LxWxD) 2.286" x 2.174" x 0.648"
- Shipping weight: 12" Clock - 4 lbs.
16" Clock - 6 lbs.
- Shipping box dimensions: (LxWxD) 12" - 15" x 16.25" x 2.5"
16" - 18" x 19.25" x 3.5"
- Mounting kit includes: 2 - blue plastic anchors
2 - 10 x 1.5 sheet metal screw

ARCHITECTURAL AND ENGINEERING SPECIFICATIONS

The quartz analog clock shall be a Bogen BCAI Series analog clock and will be used as a stand-alone analog clock. The clock will have a low-profile, semi-flush smooth surface metal case. The crystal will be a shatterproof, side molded polycarbonate material. Glass and visible molding marks are unacceptable. The clock shall have a white dial with black numerals. Dials are to be made of durable polystyrene materials. The clock is to have black hour and minute hands, as well as a red second hand. The movement is to be a quartz movement with an accuracy of ± 0.8 sec./day @ 1.5 volts. The clock shall have a battery life of approximately one (1) year. The quartz movement is to operate at a frequency of 32.768 KHz. The Bogen BCAI Series analog clock shall operate on a single "AA" battery.
